

Child Witness Centre Endowment Fund

A TRULY
SUSTAINABLE
VISION

At Child Witness Centre, we support local young victims and witnesses through the criminal justice system. While our non-profit has been doing this work **since 1981**, our services are needed now **more than ever!** For every **\$1,000** we receive, you are making an incredible difference by helping one more child to begin to heal and move forward beyond their trauma.

*Illustration is based on
5% growth each year.*

\$30 million endowment fund would serve **1,500 children** annually (100% of our current service need). At this point, we would only need to fundraise to **expand** our services and scope and to **keep pace** with the cost of living.

childwitness.com/our-endowment-fund

With our current endowment fund sitting at **\$72,000** thanks to the generous support of donors like Jim Balsillie and Heidi Henschel, the building blocks are in place for growing this investment. We currently spend **15%** of our time and budget on fundraising. **Our endowment fund vision** is to have sustainable funding in place so our staff can spend their time and energy doing the important work of serving children who need our support.
