

Outreach & Education

Did you know?
27% of Canadians
were abused by an
adult before the
age of 15.

**Building safer
communities
together**

Early Education and Awareness are Invaluable

Our outreach initiatives with schools, organizations, community groups, and the broader public in Waterloo Region, Guelph, and Wellington County aim to raise awareness, share insights, and better serve child and youth victims, and their families.

Through our pro-active efforts and collaboration, we help local young people feel safer, supported, and empowered. What we do includes:

Did you know? Only **1 in 7** cases of abuse are believed to be reported. That's one reason outreach matters!

- ✓ Providing training and presentations for youth and adults who work with them.
- ✓ Raising awareness about abuse, crime, and supports available – including our own.
- ✓ Addressing prevalent issues to prevent harm from happening or escalating further.
- ✓ Connecting individuals and organizations to resources and services available.

By increasing awareness and making connections, our outreach helps create a more informed, responsive, and supportive community.
